U. S. PICKS SITE FOR COALING STATION

CHINESE REVOLUTION IS GAINING

NAVY MEN HAVE DECIDED UPON \$345,000 PLANS

The naval engineers are today making water. It will extend, however, about ing surveys and driving test piles at an equal distance above the surface, Pearl Harbor for what will be the greatest as the 75,000 now maintained here greatest coaling station on the Pacific, as munitions of war.

After months of indecision the most Although a coaling station was in- advantageous site obtainable has been decided in the \$19,000,000 estimate of finally determined upon, and it is ex-Secretary of the Navy George Von L. peeted that an appropriation of \$345,000 for Pearl Harbor work, there 500 will be made by the next Congress has been considerable difference of opinion as to the best site. Pookala

The site selected is the southwest Point and Ford Island Spit have been corner of the naval reservation at Pearl Harbor seriously considered, and it is only Harbor, and adjoins the ground set within the last few days that Admiral aside for the proposed hospital station. Cowles and the naval engineers have A huge basin of reinforced concrete, decided to recommend the site which oval in shape and measuring 1200 by 1500 is now being exploited.

300 feet, will be the coal container. Preliminary surveys and tests will be This basin will be 18 feet deep and completed in a few weeks and the nec- this depth the stored coal will be unnecessary data sent to Washington.

Legal Fight Starts On Belt Road Case

Alleging that John H. Wilson has no status in the court in his capacity of unsuccessful bidder, but only as a taxpayer, the defendant in the belt road case this morning filed a motion to strike out all those parts of the complaint that deal with what loss he will suffer as an unsuccessful bidder and this they are asking to have struck out.

Argument on the case was lengthy the complainants fighting hard against the motion to strike and taking up each point of the complaint as it came up and arguing out the merits of it. The attorney's table was covered with law books and when Attorney Prosser had made his last appeal to the judge, Attorney Anderson took up the fight and started in to quote from the various authorities. Time cut him short, however, and the case had conse- quently to go over until Monday when he will finish out his long list.

Deputy Attorney General White E. Sutton appeared for the loan fund commission and Attorney E. M. Wat- son for the Lord-Young Engineering company, while representing Wilson were Attorneys Mason F. Prosser and Robbins B. Anderson arguing against the motion to strike.

The defendants take as their stand

ATTORNEY GENERAL PROBES TIMBER CUTTING AT WAIANAE

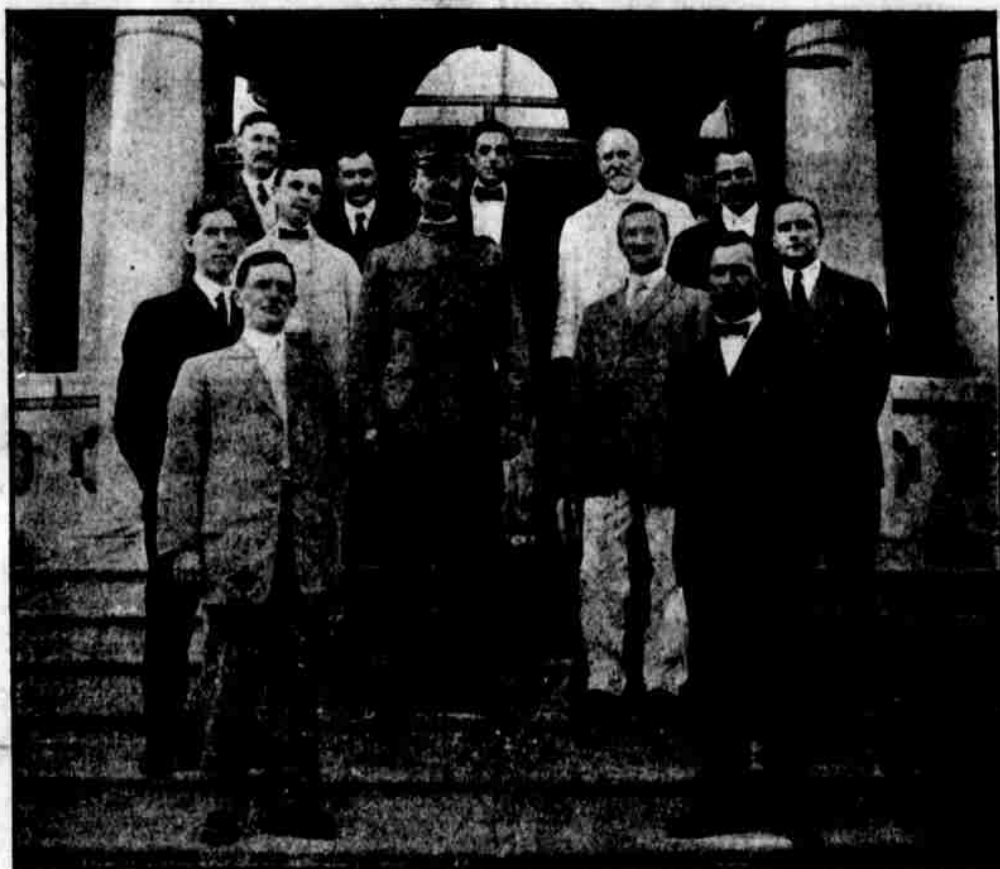

Following a story that appeared in the Bulletin on October 11 relating to the alleged cutting of timber at Waianae, on about three thousand acres of land that are at the present time under lease to the Dowsett Estate, the Attorney-General's Department has been making investigations. Attorney General Lindsay announced this today.

At first it was thought that the matter would come out as did the case on Maui, where the lease states that no algeroba shall be cut and the timber cutters get out of it owing to the fact that the Supreme Court has held that algeroba is not timber.

When the lease was referred to, how- ever, it was found, says Lindsay, that this does not apply to the present in- stance and that there is a special clause in the lease which states that the lessees must not cut down trees of any description that were either growing on the land when they went there or have grown since.

As far as the Attorney General has been able to find out, there are about thirty men engaged in cutting the trees and on Monday he will take steps to have this stopped. The lands in question are in one of the several fertile valleys that lie along the route of the Oahu Railway and Land Com- pany lines. The Dowsett estate has the land under a thirty years' lease, which expires during the first part of

Men Who Head Work Of Laymen's Missionary Convention Next Week

Griffiths, Oahu Col- lege; Maj. A. M. Davis, U. S. A., chairman committee; Carl du Roi, Felix Tranquada, Rev. J. P. Erdman. Front row—Paul Super, Samuel K. Kamaopili.

MAJ. A. M. DAVIS, U. S. A., Chairman, Cooperating Committee.

With nearly two hundred delegates in attendance, Hawaii's first conven- tion of the Laymen's Missionary Movement will begin next Monday at 12 o'clock, when there will be a luncheon and session in the new Y. M. C. A. games hall.

Seldom has any religious movement aroused such widespread interest in Hawaii as the Laymen's Missionary Movement. As in every other part of the country, it has appealed with ir- resistible force to not only the religious but all the elements of the commu- nity. Most of the denominations rep- resented in Honolulu are sending dele- gates to the convention next week.

The luncheon next Monday morn- ing will open two days of work toward practical missionary activity. It is emphasized that the general public is invited to every session, and that the luncheon session will be open to all after one o'clock. There seems to have been an impression that the movement is primarily for men, women are not invited to the conven- tion sessions, but such is not the case. A special invitation is extended to all by Major A. M. Davis, chairman of the convention committee.

Major Davis this morning issued the following notice:

THE LAYMEN'S MISSIONARY MOVEMENT.

By MAJ. A. M. DAVIS
Chairman Central Cooperating Committee, Laymen's Mis- sionary Movement.

The modern missionary campaign is a matter of peculiar interest to Honolulu. Situated as it is, where it receives the first impact of the East on the West, it is going to be of vital interest to Honolulu that that impact be Christian. Christianity means civilization, and as eighty per cent of the Christianizing influence is supported by American and British capital, that civilization will be Anglo-Saxon, and half of it American. American civilization means American ideals, which it is of vital inter- est that Honolulu should obtain when the apparently inevitable clash shall come between Occidental and Oriental civilization.

In the domain of international rela- tions the United States is the only power that has ever injected the Golden Rule as a basis of negotia- tion. The national land-grabbers of Europe stood aghast at the action of the United States in three notable ap- plications of this principle in recent years, viz: In granting and maintain- ing an independent government in Cuba, in the policy of non-exploita- tion and liberal free education in the Philippines, and in the return of the

indemnity for expenses incurred by its participation in the allied military occupation of China.

The United States does not claim to be the most cultured of the nations of the world, but it does claim to be the most gentlemanly in its interna- tional relations. Gentleness has been well defined as that quality in a man which prevents his placing any- one in a false or unpleasant position, and therefore is a quality of the heart and not of the exterior. In other words, it means a course of conduct based on the Golden Rule.

In the international agreements of the future between East and West, Honolulu has good reason to hope that all may be gentlemen's agree- ments in the highest sense of the word.

For this reason, if for no higher, Honolulu desires the missionary cam- paign Eastward to be as much an American campaign as is possible, and bids the Laymen's Missionary Movement aloha.

HILO PEOPLE ANGRY AT CAMPBELL

(Special Bulletin Correspondence.)
HILO, Oct. 20.—A number of en- ergic protests are being heard in this city over the plans for development of the section of land in vicinity of Reed's Bay and Kulu Bay, which have been evolved by Commissioner of Public Works Marston Campbell. The main objection comes to the fact that he proposes to grant to the Hilo Railroad Company a right of way through the middle of the new and broad street which is proposed as the connecting link between Front street and the new wharf location. The matter is one of considerable importance to the people of this city and appears to have been settled, as far as the Superintendent of Public Works is concerned, without any

REBELS HOLDING VANTAGE POINTS ON THE YANGTSE

(Associated Press Cable.)
PEKING, China, Oct. 21.—Rumors are current here that the flagship of Admiral Sah Shah Ping, head of the imperial navy squadron that has been engaged against the revolutionists, has been sunk.

It is reported that the rebels are holding Hwang Chow, the narrowest point of the Yangtse-Kiang river and a strategic position, also Chang and the railroad near Kwang Shui.

The national assembly will convene tomorrow and a crisis is feared.

FIGHT ON REORGANIZATION OF TOBACCO TRUST

NEW YORK, N. Y., Oct. 21.—The attorneys-general of the States of Vir- ginia and North and South Carolina have filed a joint petition against the proposed reorganization plan of the American Tobacco Company.

WOMAN IN CHICAGO ROBBED OF \$10,000 IN JEWELS

CHICAGO, Ill., Oct. 21.—Mrs. Fairbanks has been robbed of jewels here said to be worth \$10,000.

Sweeping Orders To Americanize Service

By C. S. Albert.
(Special Bulletin Correspondence.)
WASHINGTON, D. C., Oct. 20.—Quite a sensation has been created by the issuance of orders which will grad- ually but surely Americanize the army and navy. All aliens are to be replaced by American citizens. It is not here- after proposed to take any chances on the leakage of military secrets.

The issuance of the sweeping order was developed in the utmost secrecy. Its actual existence did not become known until after the continual disap- pears.

vaults and messroom orderlies from the navy yards at Manila, San Francisco, Norfolk and other places. It then de- veloped that the disappearance was in- tentional. The men were being re- moved at every possible opportunity. It is intended to dispense with every Japanese servant, no matter in what capacity he is employed. The same rule will be applied to all other na- tionalties, although the preponderance of such servants were Japanese.

Yellow Fever Feared

A Chinese discovered this morning among 150 other passengers in the Toyo Kisen Kaisha liner Hongkong Maru, board the Hongkong Maru is said to have stated that the Chinese complain- ant officials at this port to take im- mediate notice and at once raise the bars which placed that vessel in de- tention. She is now riding at anchor off the port of Honolulu, with quar- antine, customs and immigration offi- cers under detention.

The dread specter Yellow Jack is suspected of having found its way into the steamer which now awaits an op- portunity to enter the harbor and take on a consignment of coal before taking up the voyage across the Pacific to Japan and China ports.

The Hongkong Maru comes from Central and South America. This ves- sel appeared off the harbor at daylight, and a party of Federal quarantine med- ical officers, including Dr. Carl Ramus, Dr. A. N. Sinclair and Inspector Mrs. Smith, in the launch Oahu, visited the ship at 6:30 and boarded the vessel.

Captain Togo, master of the Japa- nese liner, informed the local officers of

the illness of one of his Chinese pas- sengers. The Japanese surgeon on board the Hongkong Maru is said to have stated that the Chinese complain- ant officials at this port to take im- mediate notice and at once raise the bars which placed that vessel in de- tention. She is now riding at anchor off the port of Honolulu, with quar- antine, customs and immigration offi- cers under detention.

The case is a suspicious one, and that it has caused a decided stir in local quarantine circles is borne out by the activity displayed in the calling together of a conference of local phy- sicians and specialists, which took place at noon today.

Dr. Sinclair returned from the ship and at once got into communication with Dr. Curry and Dr. Hobdy. In the meantime Dr. Ramus, head of the
